PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with hands-on academic experience in Python, OOPs, SQL, Django, Django REST Framework, REST APIs, HTML5, CSS3, and JavaScript. Built a full-stack photography platform with authenticated CRUD workflows, relational database models, RESTful APIs, responsive frontend components, and Git-based development. B.E. Electronics & Communication student seeking to strengthen industry-ready frontend and backend development skills through Python Full Stack training and live-project environment.

EDUCATION

B.E. Electronics & Communication (Advanced Communication Technology), 2023 – 2027

CGPA: 7.0

CSMSS Chh. Shahu College of Engineering, Chhatrapati Sambhajnagar

HSC (12th Grade), 71.50%

2022

Maharashtra State Board

SSC (10th Grade), 69.80%

2020

Maharashtra State Board

TECHNICAL & CORE COMPETENCIES

Core Competencies: Python, OOPs, Python Full Stack Development, Frontend Development, Backend Development, SQL, Database Management, Django, Flask, Django REST Framework, REST APIs, CRUD Operations, Authentication, API Integration, Debugging

Technical Tools: Python, Django, Django REST Framework, Flask, SQL, SQLite, PostgreSQL, MySQL, HTML5, CSS3, JavaScript, Bootstrap, JSON, Fetch API, Git, GitHub, VS Code, Chrome DevTools, Figma

Frontend Concepts: Semantic HTML, Responsive Web Design, Flexbox, CSS Grid, DOM Manipulation, Event Handling, Form Validation, Dynamic Data Rendering, Accessibility, Cross-Browser Compatibility

Backend Concepts: Python OOPs, Django MVT, Django ORM, Models, Views, URL Routing, Flask Fundamentals, RESTful API Development, HTTP Methods, JSON Handling, Database Connectivity, CRUD Operations, Authentication, Server-Side Validation

Database Concepts: SQL Queries, Relational Database Design, Primary Keys, Foreign Keys, Joins, Normalization, Indexing, Transactions, SQLite, PostgreSQL, MySQL

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Time Management, Attention to Detail, Continuous Learning

Languages Known: English, Hindi & Marathi ensuring seamless diverse client interaction.

ACADEMIC & PROFESSIONAL PROJECTS

AfterGlow – Full-Stack Photography Gallery

Tools & Technologies: *Python, Django, Django REST Framework, SQLite/PostgreSQL, HTML5, CSS3, JavaScript, Bootstrap, REST APIs, Git, GitHub*

Built a full-stack photography platform supporting 6+ core workflows including user authentication, photo upload, gallery browsing, photo update, deletion, and filtering using Python and Django.

Developed 10+ RESTful API endpoints and CRUD workflows with Django REST Framework and Django ORM, enabling structured management of user, photo, and gallery records.

Designed relational database models with SQLite/PostgreSQL and implemented validation, user-specific access control, filtering, and chronological photo retrieval across 3+ related entities.

Developed a responsive frontend using HTML5, CSS3, JavaScript, Bootstrap, Flexbox, and CSS Grid, delivering consistent layouts across desktop and mobile interfaces.

Implemented JavaScript-based image previews, search/filtering, and cinematic lightbox interactions, reducing repetitive gallery navigation steps by approximately 30% in the prototype.

Used Git and GitHub for source-code management, feature tracking, and iterative development while debugging frontend, API, and database integration issues.

Campus Service & Complaint Management System

Tools & Technologies: *Python, Flask, MySQL, HTML5, CSS3, JavaScript, Bootstrap, REST APIs, JSON, Git, GitHub*

Developed a Flask-based full-stack application supporting 6+ workflows for complaint creation, categorization, status tracking, user management, and administrative responses using Python and SQL.

Designed 4+ relational MySQL tables with primary-key and foreign-key relationships and implemented SQL-based CRUD operations for structured complaint and user data management.

Created 8+ REST API endpoints using Flask for resource creation, retrieval, updating, and deletion, exchanging application data through JSON responses.

Built responsive frontend interfaces with HTML5, CSS3, JavaScript, Bootstrap, Flexbox, and CSS Grid, improving navigation efficiency by approximately 25% in the academic prototype.

Implemented client-side and server-side validation, error handling, dynamic DOM updates, and Git-based version control to improve application reliability and maintainability.

CERTIFICATIONS

NxtWave — AI for Students: Build Your Own Generative AI Model — Issued Mar 2026 | Skills: Generative AI

React.js — Infosys Springboard — Frontend Development with React Components, Hooks & State | Skills: React.js, Frontend Development

7-Day IoT Bootcamp — Hardware, Sensors & Cloud Integration | Skills: IoT, Sensors, Cloud
